Stylistyka opraw oświetleniowych, z masy gipsowej i ceramicznej, doskonale koresponduje zarówno z wnętrzem klasycznym jak i nowoczesnym. Możliwość samodzielnego malowania opraw na dowolny kolor, a także pokrywania ich różnymi rodzajami powierzchni ozdobnych daje nieograniczoną wręcz swobodę aranżacyjną. Proponujemy następujące wykończenia:

Stylistics of gypsum mass and ceramic mass luminaires perfectly corresponds with both classical and modern interior. Possibility of painting the luminaires any colour, and also covering them with different types of ornamental surface gives unlimited designing freedom. We suggest You following decorations:

Żarowe źródła światła

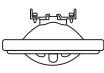

W obrębie lamp żarowych występują różne kształty bańki - najczęściej stosowane przedstawione są poniżej:

Halogenowe źródła światła

Halogenowe źródła światła zapewniają o 50% niższe zużycie energii w porównaniu z tradycyjnymi żarówkami, przy lepszej jakości światła i wyższej żywotności. Stosowane lampy halogenowe:

Świetlówki kompaktowe zintegrowane

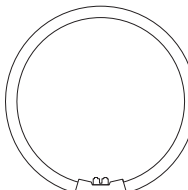

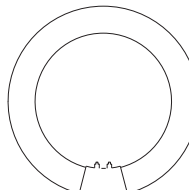

Świetlówki kompaktowe ze zintegrowanym układem elektronicznym, są bezpośrednim zamiennikiem lamp żarowych. Z uwagi na wysoką efektywność i trwałość zaliczają się do energooszczędnych źródeł światła.
